Ready to go!
Complete your
solution with
Cloud Business!

What is surface365?

Get the latest Microsoft Surface hardware with full access to the Office 365 suite of products, enhanced security with EM+S and access to expert IT support. All for one fixed monthly cost.

Each device is configured with policies and software for your organisation. All the setup is handled by our team so that when it is unboxed by your users it is ready to go.

Our Cloud Care solution provides technical support to you and end users, consistent security updates and device replacement in the event of being lost or stolen – you are covered for all your device cycle management needs.
