

Case study:

Climate KIC

“We needed an innovative and high quality solution that would grow with us. Cloud Business led us through the process and provided excellent support.”

Lisa Bozek, Climate KIC

Climate KIC are Europe’s largest public-private innovation partnership focused on climate change, consisting of dynamic companies, the best academic institutions and the public sector.

Climate-KIC

Snapshot

- ICT Transformation Project
- Windows 10
- Office 365
- Microsoft Intune
- Azure

What did Climate KIC want to achieve?

Climate KIC was originally aligned to a number of universities through Europe, using these organisations' IT. As part of Climate KIC becoming its own entity, they were establishing themselves as their own organisation requiring their own ICT Infrastructure for laptops, files, email, VOIP and connectivity.

How did we help them succeed?

Cloud Business proposed a server less infrastructure, using Windows 10, Office 365 and Windows Intune. This approach allowed for direct SSO to Office 365 from Windows 10.

Cloud Business managed a series of project streams to facilitate the migration from hosted Exchange to Office 365, provisioning new equipment and training to users as part of their transition from the universities.

The project crossed a number of technologies and time zones which required close project management from our team. User feedback has been very positive.

Where Climate KIC happy with the result?

Climate KIC now have a fully secure, managed IT solution on which to grow their business.

As it is based on Office 365, Azure, Intune and Windows 10 there is plenty of opportunity for innovation for the future. Users can securely connect to important information from any device, anywhere in the world.

"We needed an innovative and high quality solution that would grow with us. Cloud Business led us through the process and provided excellent support." Lisa Bozek, Climate KIC

A final word about Cloud Business

We create transformative IT technology solutions that give our customers the protection and freedom to become the business they want to be.

Over 20 years of experience in the delivery of IT Support and project services to recognised UK and global brands on a 24 x 7 x 365 basis.
