

Azure Manage

Focus on what **you do best** and leave Azure support and **optimisation** to us

Free up your team from day-to-day Azure monitoring, management and support, so you can spend more time innovating with Azure and achieving your goals.

Our Azure experts are available 24/7, to support your team and help you do more with Azure.

Cloud Business' Azure Manage service looks after the availability, performance, security and health of your Azure estate. Integrated into our award-winning service desk, we handle monitoring, management and support incidents or requests, while you focus on what you do best.

We are here to help you and your people get the most from Azure. By leveraging our extensive experience & best practice, and our people-centric approach, you can be confident that your Azure environment is in safe hands.

The benefits of Azure Manage:

- **Maximise your investment:** Free up your team's time to innovate with Azure, instead of day-to-day monitoring, management and support.
- **Drive cost efficiencies:** Azure Manage helps ensure you are only paying for the compute power you need.
- **Get specialist expertise:** Our Azure consultants become an extension of your team, helping you do more with Azure.
- **Secure your Azure estate:** Strengthen your organisation's security posture, and stay ahead of threats.

Azure Manage includes:

- **Infrastructure management:** We work behind the scenes to monitor your Azure infrastructure's availability, performance, and health. Minimising downtime and service degradation, and providing 24/7/365 monitoring, management and support to boost the performance and availability of your systems and applications.
- **Security and governance:** Our Security Operations Centre (SOC) works around the clock to protect against threats and keep your machines, data and applications secure and compliant.
- **Cost optimisation:** Keeping track of your Azure spend can be a challenge. We leverage Microsoft best practice and tools to proactively manage your investment and increase value for money.
- **24/7 Service desk:** Our market-leading IT Service Desk works in partnership with our professional services team, to provide outstanding technical support and expertise.

Why Cloud Business?

"We take a people-centric approach by putting our customers' users at the heart of everything we do; led by people and their objectives rather than technology."

James Butler, CEO
